As an ambitious and continuously learning software engineer, I am eager to start my career in the software industry. With a strong foundation in software development, gained through coursework and practical projects, I aim to apply my skills to create innovative solutions. My goal is to make valuable contributions while continually improving my expertise. I am committed to keeping up with the latest industry trends.

EDUCATION

Bachelors in Computer Science & Engineering - AIML 2021 - 2025

- Uttaranchal University
- GPA - 7.72

HSC BIEAP in MPC 2019 - 2021

- Nucleus Junior College
- Percentage - 85.9

SSC BSEAP 2018 - 2019

TECHNICAL PROJECTS

Interactive Sorting Visualizer

- Developed an interactive tool demonstrating various sorting algorithms with real-time animations.
- Added sorting speed adjustment and pause/resume controls, enhancing comprehension and engagement.
- Strengthened understanding of algorithm efficiency and complexity through hands-on visualization.

End-to-End Transaction Database Management System

- Designed a relational database schema managing 100,000+ retail transactions, ensuring data integrity and optimized query performance.
- Created a Streamlit-based interface for interactive querying and revenue trend visualization, enabling seamless analysis of monthly and product-level insights.

Complex-Valued Hopfield Associative Memories

- Built a Python-based Hopfield Network using complex-valued representations to enhance associative memory modeling.
- Achieved 10% higher memory capacity and 15% better recall reliability compared to binary models.
- Investigated potential applications in fraud detection and anomaly analysis.

SOFT SKILLS

- Observation
- Problem Solving
- Multi-tasking
- Communication
- Decision Making
